# CUSTOM steel

**Synthesi Steel PVD Custom Edition**  
STEEL IS GETTING SMARTER.

**More beauty and strength in an exclusive design.**

Urmet introduces **Synthesi Steel PVD Custom Edition**, a new special series of sturdy, yet beautiful vandal resistant entry panels.

**More beauty:** the standard POLISHED STEEL model is now joined by new BRASS, BRONZE-COPPER and GUN METAL GREY finishes, with anti-oxidisation and anti-corrosion **PVD** (Physical-Vapor-Deposition) treatment that preserves the polished look of surfaces.

**More strength:** thanks to its steel structure, **Synthesi Steel** is resistant to acts of vandalism, impacts and infiltration of liquids. The flush buttons prevent the external elements of the entry panel from being damaged, and the wide-angle colour camera guarantees a wide field of vision for improved safety.

**An exclusive design:** the first durable, vandal-resistant entry panel that also looks beautiful, thanks to its unique design and modern, bright white backlighting.

With **Synthesi Steel PVD Custom Edition** steel is getting smarter.
